# INSURANCE SOLUTIONS

Our insurance solutions are designed with entrepreneurs acquiring wealth in mind.  
Get coverage that fits your goals, not just your risks.

## For Individuals

### Life

As a business owner, your family and your future may depend on your ability to generate income. Life insurance ensures that if the unexpected happens, your loved ones are financially protected. It can help cover everything from mortgage payments and debt to business succession and college savings—offering peace of mind that your legacy will carry on.

### Disability

Your ability to earn income is one of your greatest assets. Disability insurance helps protect that income if illness or injury prevents you from working. Whether you're a solopreneur or managing a growing team, this coverage keeps your household and business finances on track while you focus on recovery.

### Final Expense

Final expense insurance covers the costs that often arise at the end of life, including funeral services, medical bills, and outstanding debts. It's a simple, affordable way to relieve your family of unexpected financial burdens and ensure your transition is handled with dignity and care.

#### **Additional Individual Insurance Offerings Include:**

Personal Articles 🏠 | Watercraft 🏠 | Classic/Collector Vehicles 🏠 | Home Warranty  
Renters 🏠 | Device Protection 🏠 | Notary Bond & More!

## For Businesses

### General Liability

Protect your business from everyday risks. General liability insurance covers bodily injury, property damage, and legal costs if someone is hurt or their property is damaged due to your business operations.

### Business Property

Safeguard the physical assets that keep your business running. Business property insurance helps cover the cost to repair or replace your building, equipment, inventory, and furniture after theft, fire, or other covered events.

### Professional Liability

Mistakes happen—this coverage protects you when they do. Professional liability insurance (also known as errors and omissions) covers claims of negligence, missed deadlines, or professional errors that result in financial loss for a client.

### Landlord Insurance

If you rent out commercial property, landlord insurance protects your investment. It covers damage to the building, loss of rental income, and liability claims related to tenant injuries or property issues.

### Cybersecurity Insurance

In today's digital world, a data breach can cost more than just money—it can damage your reputation. Cybersecurity insurance helps protect your business from cyberattacks, data theft, and system hacks by covering recovery costs, legal fees, and client notification requirements.

### Event Insurance

Planning a pop-up, conference, or community event? Special events insurance provides short-term protection against unexpected cancellations, property damage, or liability claims—so you can focus on hosting with confidence.

#### **Additional Business Insurance Offerings Include:**

Surety Bonds 🏠 | Community Association 🏠 | Non-Profit Liability 🏠 | Builders Risk  
Vacant Commercial 🏠 | Dwelling/Fire & More!

## EDUCATION

Through strategic partnerships with Business Support Organizations and Community Development Financial Institutions, we deliver culturally responsive financial education tailored to entrepreneurs. From credit building and insurance literacy to capital readiness, our workshops, toolkits, and advisory services help founders strengthen their financial foundation and move toward long-term sustainability.

**We deliver customized support through a three-tiered service model:**

1. **Direct-to-Entrepreneur Support:** Virtual + in-person offerings to help solopreneurs and small businesses build credit, protect assets, and access funding.
2. **Train-the-Trainer Programs:** Licensing, facilitation, and white-labeling for organizations to deliver our signature frameworks.
3. **Ecosystem Partnerships:** Flash consulting, cohort implementation, and grant-backed programming for TA providers and CDFIs.

## We Work With

### Entrepreneurs & Solopreneurs

We specialize in working with everyday visionaries—entrepreneurs, solopreneurs, and side hustlers who are building businesses, managing households, and shaping their futures. Whether you're launching your first venture or scaling your operations, we provide culturally aligned, no-fluff guidance to help you grow with clarity and confidence.

### Entrepreneur-Serving Organizations

We partner with membership-based organizations, chambers of commerce, incubators, and co-working spaces that serve entrepreneurs, helping them offer more comprehensive support to their communities. Through workshops, one-on-one advising, and resource integration, we equip these organizations with the financial literacy tools, insurance education, and wealth-building resources their members need. Together, we close gaps in access and empower founders with knowledge that lasts beyond a single program.

### Financial Institutions

We collaborate with CDFIs and community-conscious banks to enhance the impact of their capital deployment strategies. Our services complement their lending work by preparing clients for funding through credit education, capital readiness coaching, and tailored insurance solutions. By offering personalized roadmaps and financial protection tools, we help CDFIs reduce borrower risk, increase sustainability, and extend the reach of their mission in under-resourced communities.
